EDUCATION

Rajiv Gandhi University of Knowledge Technologies, Basar

B.Tech in Electronics & Communication Engineering, 2021

CGPA: 7.82

OBJECTIVE

Goal-oriented Full Stack Java Developer with 3 years of experience in building and optimizing robust applications using Spring Boot, SQL, and modern front-end technologies. Proven track record in integrating payment gateways, developing RESTful web services, and enhancing user experience through scalable solutions. Seeking to leverage technical skills and industry knowledge to contribute to a forward-thinking development team.

WORK EXPERIENCE

Nehru Zoological Park (Centre for Good Governance) 2022 - Present

- Developed an integrated platform for ticket booking, animal adoption, and donations, enhancing visitor engagement and supporting wildlife conservation efforts.
- Integrated multiple payment gateways, boosting online ticket bookings by 60% and reducing transaction failures by 10%.
- Designed and developed RESTful APIs for the mobile app, improving real-time updates and user engagement.
- Enhanced scalability to support high concurrent user volumes during peak times.
- Conducted unit testing and troubleshooting to resolve issues and improve application performance.
- Created technical documentation and contributed to project flow designs.

Financial Management System (Centre for Good Governance) 2021-2023

- Designed and maintained a web-based FMS for the Telangana State Civil Supplies Corporation to streamline essential commodities distribution and financial operations.
- Developed GST report services and integrated GST details into contingent bill entries, ensuring tax compliance.
- Refined budget management and expenditure tracking features for improved financial reporting.
- Optimized SQL queries, achieving significant performance improvements through indexing and query optimization techniques, reducing query execution time by 30%.
